Learn English, learn about English and learn through English

David Crystal

global is a six-level general English course for adult learners. It is an information-rich course, sophisticated both in presentation and approach. It has an international appeal, combining challenging content, intelligent topics and cross-cultural awareness.

The **global** approach is fully aware of the needs of today's learners, and places an emphasis on effective communication in English between both native and non-native speakers. **global** is the ideal course for learners who want to communicate in a global environment.

global is a true multimedia course, with a number of digital components integrated into the course structure. It takes full advantage of the learning possibilities opened up with the combination of book and multimedia-based content.
